About Me

UX Researcher with **8+ years' experience** shaping digital products and services across SaaS, consultancy, startups, and public services. I design and deliver research strategies that balance user needs with business goals, unlocking revenue, boosting adoption, and improving accessibility.

Experience

UX Consultant Lead — 2025- Present

The Adaptavist Group | Tech Consultancy| Palma

Secured **$250k** in UX consultancy work supporting large scale Atlassian cloud migration and transformation programmes. Working with enterprise clients to improve adoption, reduce migration risk and align teams on new processes.

Lead UX Researcher — 2022 – 2025

Altruistiq | Climate Tech SaaS | London/Palma

Set the research strategy across **seven squads**, embedding mixed-methods insights into product roadmaps and shaping enterprise-ready decarbonisation tools. Partnered with PMs and execs to reframe priorities, unlocking **$1M+ ARR** and launching a seat-based permissions model used by **10,000+ users**. Built and scaled the research function from scratch, mentoring teams and embedding a research-driven culture across the organisation.

Senior UX Researcher — 2021 - 2022

Kainos l Digital Consultancy | London

Led user research for high-impact public services, increasing NHS App (33m+ users) notification **opt-ins by 25%** and **doubling digital pension uptake** through journey simplification. Drove product decisions by translating complex regulatory requirements into intuitive user experiences and influencing cross-functional strategy.

UX Research Lead — 2021- 2021

Mojo | Health-tech Startup | London

Built and scaled a research pipeline across the product lifecycle, **boosting therapy engagement by 15%** and **reducing onboarding churn by 10%**. Delivered actionable behavioural insights that shaped product strategy and improved trust in a sensitive user context. Established rigorous ethical research practices around data, safeguarding, and consent.

Senior UX Researcher — 2019- 2021

Department for Education l Public Sector | London

Led end-to-end research for the nationally launched teacher training application service, shaping product direction through **100+ studies.** Partnered with policy, delivery, and design teams to simplify visa and language flows, **increasing international applications by 5%.** Scaled research capability across the department by **training 20+ researchers** and embedding user-centred design into decision-making.
